

CLEANGREDIENTS®

The definitive database of market-ready chemical ingredients pre-approved to meet EPA's Safer Choice Standard.

Formulators

- Let your customers know your products are safer by obtaining the Safer Choice certification.
- Eliminate guesswork, reduce review costs, and reduce the risk of failing Safer Choice review by using CleanGredients to source ingredients.
- A CleanGredients subscription gets Safer Choice-certified products to market faster.

Suppliers

- Highlight your ingredients' safety credentials and share key information with your customers.
- Help your customers save time and money and become a supplier of choice.
- Enhance your brand reputation and become part of a growing green chemistry community.

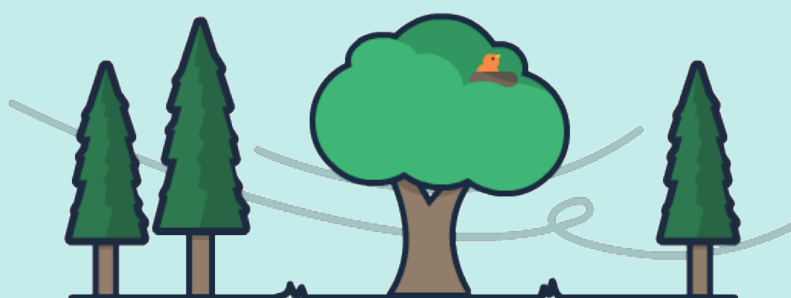

Why Safer Choice?

The Safer Choice certification makes it easy to select products with safer ingredients without sacrificing the quality or performance you expect. Safer Choice-certified products meet EPA's stringent health and environmental criteria to protect you, your family, pets, and the environment.

76% of consumers would use the Safer Choice label to inform purchasing decisions.
